Of the new men in the house the most picturesque is the new delegate from Hawaii. He must be called Prince Cupid, since his real name is a jawbreaker. The prince is very dark, though handsome and without a single feature that would give the impression that he is of African descent. He is pure Hawaiian and deeply resents is pure Hawalian and deeply resents any hint of negro blood, indeed, with such indignation that he has challenged more than one scoffer at his ancestry more than one scoffer at his ancestry to instant combat. He brings with him as his adviser, Joseph Pratt, who, during the last congres, aided materially in pushing through the bill to pay the Honolulu fire claims. William Hearst is a figure of interest to New Yorkers and Californians. He is expected to cut a wide swath politically and socially.

There is nothing else like it anywhere, and various attempts at imitation of it have falled. This is because of the peculiar environments the city of Wasangton give it. Its success is due mainly to the character of the guests it entertains and on the class of topics which come ready to its hands, suitable for running travesty and satire. The club has no club room and it holds no meetings. Its function is to give a series of dinners SESSION.

Washington, Nov. 7—A western member of the senate committee on privileges and elections has stated that the investigation the committee will make of the Smoot case will not be a perfunctory affair by any manner of means.
